Projects

Road Sarathi | Flutter | Link
- Allows people to send images and complain to local authorities for bad conditioned roads.
- In case of local authority not responding the complaint transfers **automatically** to higher authority itself.
- **Google Firebase** is also being used for authentication and chatting.

Project Management Portal | MERN | Link | Link 2
- Created a project management portal in **MERN** for student and teachers to keep track of projects assigned by college.
- Admin can keep an eye and control all projects.
- Created on the **MERN** stack and deployed on **Heroku**.

Podcasts | Flutter | Link
- Created an app in **flutter** for users to listen to podcasts of their favorite artists.
- **Google Firebase** used to store data using flutter fire.

Auto Suggest | Data Structure | Link
- Created a program that suggests the current typing text to the user for a hassle-free experience.
- Created on Data Structure **Trie** in C++ language.

Experience

Nagarro | Intern | June 2022
- Working on front end development.

Education

B. Tech (CSE)
JIIT Noida

2019 – Present (2023)
